PROJECTS

RUMBL (React, Typescript, HTML, CSS, API)

Fall 2025

- Built a React-based application that fetches and renders real-time data from a public open-source API.
- Integrated Open-source API (The Meal DB) and used its data to provide recipe information for a Tinder-like Web App
- Styled interactive UI elements, including animations, cards, and hover effects, to improve accessibility and user engagement.

Psychora (Figma, Adobe Express, Procreate)

Spring 2025

- Designed the UI/UX for a mental health mobile app featuring mood tracking and journaling tools.
- Integrated a prototype AI chatbot 'Chora' using natural language processing, enabling personalized emotional support and earning *Best Use of Adobe Express* at CreateRU Designathon.

Aberdeen Honey (HTML, CSS, JavaScript)

Fall 2024

- Developed a responsive e-commerce site for a local business with product listings and interactive design.
- Implemented 65% of core functionality, including catalog and contact forms; preparing for live deployment.

PROFESSIONAL EXPERIENCE

Blueprint

New Brunswick, New Jersey

Frontend Engineer Educational Director

Jan. 2026 – Current

- Lead frontend software engineering instruction for cohorts pursuing Blueprint certification, designing and presenting structured slide-based lessons that cover core frontend technologies.
- Collaborate with other Educational Directors to align curriculum, teaching strategies, and assessments, ensuring a consistent, high-quality learning experience across student cohorts.

Rutgers Marching Band

New Brunswick, New Jersey

Webmaster

Dec. 2024 - Current

- Maintain and update rutgersbands.com with accurate schedules and performance content for 350+ band members.
- Ensure consistent communication across the website and social platforms. Collaborated with social media specialists.

Adobe Express

Remote

Ambassador

June 2025 - Current

- Create promotional content and organize campus initiatives to increase student adoption of Adobe Express.
- Collaborate globally with Adobe Ambassadors to ideate and share creative strategies.

EXTRACURRICULARS

Women in Computer Science (WICS)

New Brunswick, New Jersey

General Member

Sept. 2024 – Current

- Participate in networking events with alumni and recruiters to strengthen interview and career readiness.
- Conducted mock interviews and engaged in career prep sessions to enhance professional communication.

ColorStack

New Brunswick, New Jersey

General Member

Sept. 2024 – Current

- Collaborate in weekly technical workshops and group problem-solving sessions to refine data structure and algorithm skills. Networking with alumni and getting personal introductions from professionals.
